ROBERT HAUK **Milonguero Tango Weekend**

Friday January 20 - Sunday January 22, 2006
Phillips Recreation Center, 505 W Stoughton, Urbana IL
& University of Illinois Illini Union, 1401 W Green, Urbana, IL

SCHEDULE

Session A: Friday Evening January 20: Phillips Recreation Center

7:00 – 7:30 PM: Registration

7:30 – 9:00 PM: Workshop #1: - “Introduction to Milonguero Style”

This class will develop the fundamentals of the milonguero embrace. We will work on posture, walking, and some small rhythmic steps. This class is good for beginners and dancers who are new to dancing in the milonguero embrace.

9:00 – 11:00 PM: Practica / Welcome Party

Session B: Saturday Afternoon January 21: Phillips Recreation Center

1:00 – 1:30 PM: Registration

1:30 – 2:45 PM: Workshop #2: “Check Step Turns”

This class will develop a fundamental group of movements. The check step turns are great movements in themselves, and are often used as openings to more complex movements.

3:00 – 4:15 PM: Workshop #3: “Walking in Crossed Feet”

This class will develop walking in crossed feet. We will develop the back ocho and combine it with the earlier material to develop longer sequences.

Session C: Saturday Evening January 21: Phillips Recreation Center

8:00 – 9:30 PM: Workshop #4: “Dancing to the Rhythmic Orchestras”

We will use the material developed to explore a rhythmic way to dance tango. This will give a solid interpretation of the music of orchestras like Juan D'Arienzo, Rudolfo Biagi, Ricardo Tanturi, Edgardo Donato, and others. This will be a playful and fun way to dance tango.

9:30 – 1:30 AM: MILONGA (Robert Hauk, DJ)

Session D: Sunday Afternoon January 22: University of Illinois: 314A Illini Union

2:00 – 5:30 PM: Workshop #5: “Advanced Workshop on Turns and Musicality” (includes 1/2 hr break)

This class will begin to combine the material from the previous classes and add more possibilities for expression and navigation. We will develop ways to turn both to the left and to the right, allowing you to dance in the space you stand in. Turns are essential for navigation, and they are fun. The workshop will culminate with exploring the musicality of turns, particularly with respect to the uses of pauses and suspension, thus expanding the possibilities for interpreting the music.
